

THE NEW PI 3 | WIRELESS IN-EAR HEADPHONES

# THE PUREST LISTEN

Do anything, hear everything. Our in-ear headphones are built for active lives and measured by the same standards of audio excellence that have guided Bowers & Wilkins for 50 years.

Bowers & Wilkins

# PI 3

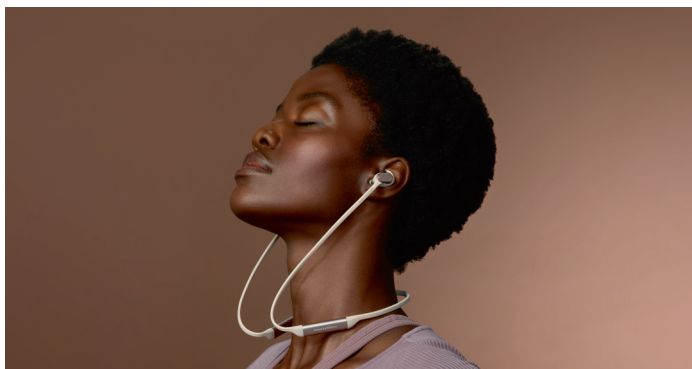

WIRELESS IN-EAR HEADPHONES

## Small headphones, more drivers

---

The headphones are smaller. The music isn't. Experience music like no other in-ear headphone thanks to a custom designed balance armature driver for crisp highs and a second dynamic driver for the mid's and low's with separate amplifiers for a full, forceful sound. Bowers & Wilkins Hybrid Dual Driver technology is here.

## Go for 8 hours

---

Enough battery life for two marathons. A quick charge gives you two hours of audio playback in 15 minutes for another go around the track.

## Hear and be heard

---

Your voice matters. The PI3 microphone carries it clearly on every call. Voices are heard with the same clarity as the music.

Space Grey | Gold | Blue

## Don't miss a thing

---

No matter what you're listening to, or watching, or playing, hear what you were meant to hear. The new aptX codec gives you pure, unmatched audio, whether you're traveling, moving, or standing still in the sound.

## A measured feel

---

Constructed from soft, coated silicone and rubber, the PI3 fits like it was made for you. It holds on even when you're going as fast as you can.
