

L/R

Active stereo speakers

For nearly six decades, we've built products that put music first. The L/R Series continues that legacy with precision amplification and advanced signal processing, drivers and acoustics. Every element works together to reveal lifelike texture and presence, bringing you closer to the performances that move you.

The L/R Series combines advanced acoustic engineering and bold, timeless design — created for people who want incredible sound without complication. From intimate listening to room-filling immersion, each model reveals the depth and emotion within every track. However you listen, the L/R range brings your music vividly and effortlessly to life.

Demonstration tracks

At Cambridge Audio we use our ears constantly, both as passionate music lovers and audio professionals looking for test examples. We test our products with all types of content, and the following suggestions are our picks for a great demo experience for your customers.

Naiads, Cassadies by Fleet Foxes
Crack-Up
(2017)

This indie folk song allows you to hear the excellent imaging and accurate placement of instruments within the soundstage. There is also a full, underlying bassline that is ever-present and clearly defined without ever sounding overwhelming.

N'Balmed by James K Friend
Friend
(2025)

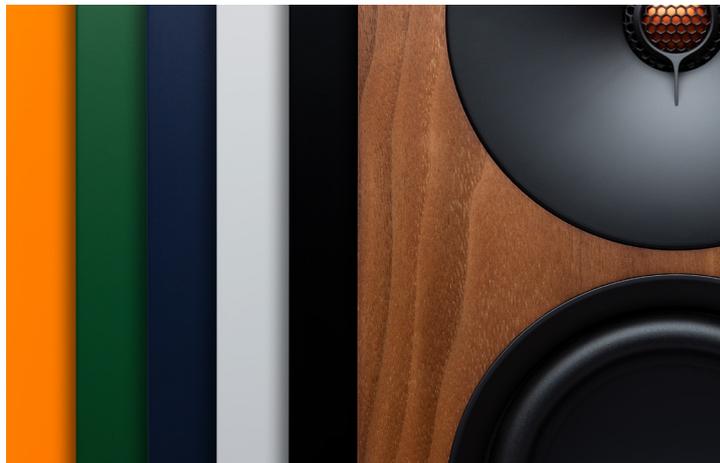

This song is kind of a fusion of ambient techno and trip-hop, displaying the L/R's ability to immerse you within its sound. It's easy to lose yourself in this track, with the L/R confidently bringing out a huge level of detail and depth from this recording.

L/R S

The L/R S introduce big, characterful sound to smaller spaces. Designed for desktops, shelves and day-to-day listening, they offer simple wired connections and easy Bluetooth pairing when needed. Compact yet capable, the L/R S deliver balanced, articulate audio, confidently outperforming their size. Expertly tuned, the L/R S bring presence and precision to desktops, stands and shelves.

L/R M and X

Power, scale and musical honesty define L/R X, whilst room-filling sound meets simple, contemporary design in the L/R M. From simple streaming to connecting a turntable, laptop or TV, sound is delivered through an advanced acoustic design featuring our innovative proprietary tweeter design and a dual-woofer system. These speakers punch way above their size, made for people who truly live with music.

1

Sound that makes a statement

The L/R Series bring high-fidelity sound to every mood and every occasion, from compact clarity for the desktop to a room-filling sound.

Every speaker in the L/R Series is designed to make a statement. Meticulously tuned by our engineers in London, refined through decades of experience and with a shared passion for music. With room-aware tuning and a simple setup process, each model delivers natural depth and precision, whether streaming, pairing or plugging in. It's a sound that feels effortless and ready for every room.

Active speakers place amplification, tuning and signal processing inside the speaker cabinet, creating a system that's optimised as a whole. With fewer boxes and fewer cables, the L/R Series is pre-tuned to work perfectly straight out of the box and deliver high-performance sound without the guesswork.

2

StreamMagic built in

Designed to evolve, not expire, StreamMagic Gen 4* powers the L/R Series with futureproofed, intuitive, high-resolution streaming.

Built in-house and continuously improved, regular updates ensure long-term compatibility with new services and features, so your speakers stay current, reliable, and enjoyable for years to come. Stream via Spotify Connect, TIDAL Connect with MQA, Amazon Music, Qobuz Connect, Deezer, Internet Radio, Apple AirPlay 2, Google Cast, and more. Roon Ready certification consolidates your library in one seamless interface.

The StreamMagic app acts as your control—curate playlists, program presets, browse albums, and tweak the EQ effortlessly. Let the music flow seamlessly from room to room by syncing multiple Cambridge Audio streaming devices around your home. Built-in Google Cast, Apple AirPlay 2 and Roon compatibility gives enormous flexibility to build the perfect multi-room system.

3

Crafted by Cambridge

Behind the L/R Series lies decades of audio expertise and innovation. The range makes high-quality audio accessible, delivering balance and clarity across both small and large spaces.

Introducing our proprietary tweeter design utilising a torus shaped rear chamber, a dual-radius aluminum dome, and custom waveguide to deliver life-like detail. Combined with a dual-woofer system* and force-cancelling passive radiators*, each innovation reveals more of the music you love.

Just as your music defines you, so does great design. The L/R Series adds clean lines, bold finishes and thoughtful details to any room. Choose from five stunning colourways or a premium walnut finish to bring confidence and personality to your home.
