Mira Ceti 300B MONO power amplifier

New Mira Ceti 300b mono power amplifier A-class is based on legendary direct heated triode 300b vacuum tubes. In standard equipped with anti-vibration feet, adapted to the weight of the device. Backlight logo. Easily accessible fuses protecting the amplifier in case of a power tube failure. Thanks to PSE Parallel Single Ended circuit architecture and specially designed output transformer it provides 15W and low THD distortions. Match with dedicated Sagita line pre-amplifier guarantee outstanding sound performance for a reasonable price.

Specification:

Model: 300B Mono power amplifier

Type: vacuum tube power amplifier

Max. output power: 15W

Circuit type: Parallel Single Ended Class A

Output impedance: 4Ω / 8Ω

Inputs: 1 x RCA

Harmonic distortions THD: < 0,1%

Frequency response: 12Hz-60kHz (-3dB)

Power consumption: 115W

AC fuse: 3,15A T

Net weight: 19,5 kg

Dimensions: 420x380x226mm

Tubes: 300b x2, 6SN7 x2

Optional equipment: tube cage

Colour schemes:
